Why buying HSL Secure KVM Cables?

HSL Develop and manufacture a set of special cables for its Secure KVM products.

Customers considering using other cables should be aware that:

1. HSL cables are made of best materials and specifically designed to interface and work with its Secure KVM products. HSL can't guaranty proper signal quality and operation with other cables.
2. Cables are part of the security evaluation. Using other cables will void security certification.
3. Unapproved cables may damage the Secure KVM product and will void the warranty.
4. Designed for lowest emitted and conducted radiations.
